INTRODUCTION

This will enable a more effective way to short list the candidate CVs from a large number of applicants providing a consistent and fair cv ranking policy, which can be legally justified. Then system will rank the cv based on the experience and other keys skills which required for particular job profile .The system will help the HR department to easily short list the candidate based on the cv ranking policy . This system will not only focus the qualifiaction and experience but also focuses on the other important aspects which are required for particular job positions. This system will help the human resource department to select the right candidate for particular job profile which in turn provide expert work force for the organisation. Candidate here will register him/herself with all its details and will upload their own CV into the system which will further used by the system to shortlist their CV
